1. Purpose

The process to transfer a Pay-As-You Go subscription to a CSP subscription requires the customer to move resources from one subscription to the other. There is not a transfer option as with CSP-to-CSP or EA-to-CSP transfers.

2. Process

1.	(END USER)	Establish AOBO/Delegated admin per Section 4.0
2.a	(RESELLER)	Create an Azure Plan in Stellr per Section 6.0 *(Preferred)*
		-OR-
2.b	(CSP PROVDER)	Create an Azure Plan in Partner Center per Section 5.0
3a.	(END USER/RESELLER)	Validate that resources can move between subscriptions per Section 7.0
		-OR-
3b.	(CSP PROVIDER)	Perform move validation assessment and provide a move plan to the reseller per Section 8.0 *(Preferred)*
4a.	(END USER/RESELLER)	Move resources from the PayGo subscription to the CSP subscription per Section 9.0
		-OR-
4b.	(RESELLER/CSP PROVIDER)	Engage TD Synnex ServiceSolv to provide professional services to complete the move per Section 10.0
5.	(END USER)	Cancel the Pay-As-You-Go subscription, reservations and support contracts as appropriate
6.	(RESELLER)	Explain the importance of the CSP Provider's foreign principal to the end user

3. CSP Indirect Reseller

- Discuss the transfer with the end user customer.
    - Explain potential resource move limitations
    - Discuss potential down time
    - Discuss differences between PayGo and the CSP program
- Provide the customer information to the CSP indirect provider.
- Inform the end user customer that they may receive a reseller relationship request from the new CSP indirect provider if they do not already have a relationship.
- Inform the end user that reservations will not transfer and will need to be canceled and repurchased.
- The end user should consider canceling direct Microsoft support contracts for Azure since they do not work in the CSP program.
- Discuss the TD Synnex foreign principal that will be present on the new CSP subscription and its importance.

4. Establishing Administration on Behalf Of (AOBO) aka Delegated Admin

- A global administrator of the tenant, whose login is a member of the tenant, will need to copy the following URL into a web browser then follow the prompts:

Copyright © 2022. TD SYNNEX Corporation. All Rights Reserved.

United States

Legacy Synnex

```
https://admin.microsoft.com/Adminportal/Home?invType=ResellerRelations
hip&partnerId=ff1b2576-d461-4916-97dc-
7ada1cd798dc&msppId=0&DAP=true#/BillingAccounts/partner-invitation
```

Legacy TechData

https://admin.microsoft.com/Adminportal/Home?invType=ResellerRelations
hip&partnerId=d5c77776-8b4c-4ceb-81da-
566aba9c59c5&msppId=0&DAP=true#/BillingAccounts/partner-invitation
```

Canada

Legacy Synnex

```
https://admin.microsoft.com/Adminportal/Home?invType=ResellerRelations
hip&partnerId=47381036-1bd3-42d6-9a38-
4a1651c1556b&msppId=0&DAP=true#/BillingAccounts/partner-invitation
```

- This will add permission to the tenant for TD Synnex; however, it will not provide access to subscriptions.
- The URL provided above comes from TD SYNNEX's Partner Center.

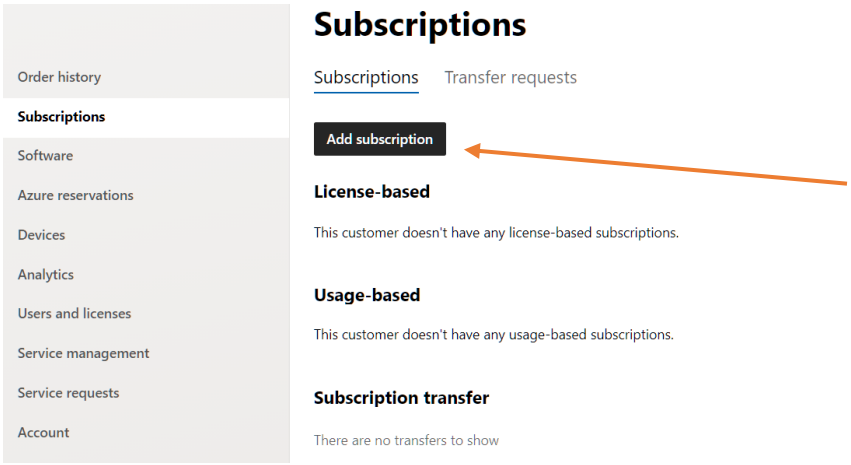

5. Create An Azure Plan in Partner Center

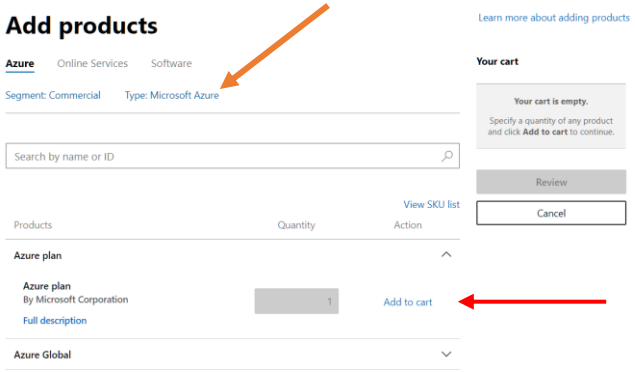

Note: The normal process is to create Azure Plans in the STELLR portal. Alternatively, the Azure Plan may be created in Partner Center by a DSE. If created in Partner Center, the AM will need to sync it to Stellr.

- Log into Partner Center and find the customer under CSP -> Customers
- Click on Subscription

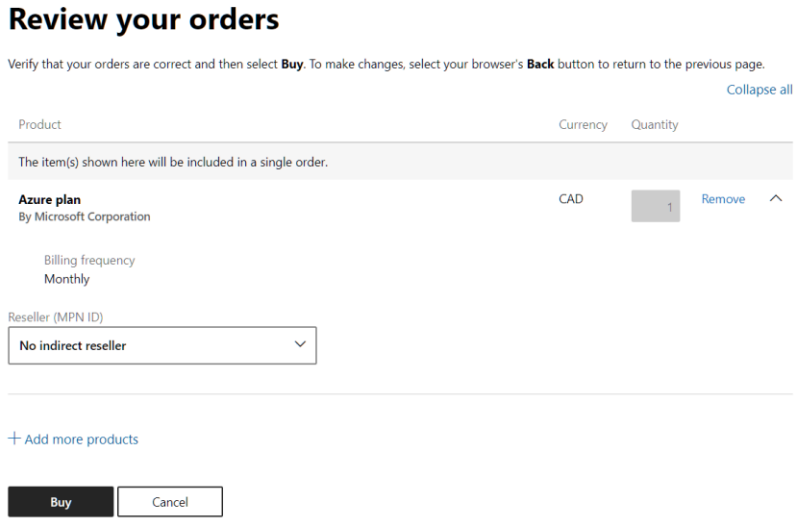

Copyright © 2022. TD SYNNEX Corporation. All Rights Reserved.

- Click on Add Subscription
- On the Add Products screen, select Azure -> Segment: Commercial -> Type: Microsoft Azure

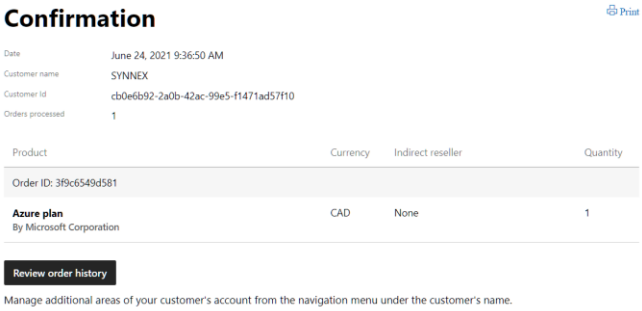

- Expand Azure Plan then click Add to cart
- After you click Add to cart, the Review button will enable.
- Click Review. The system will process before a new screen appears.

Copyright © 2022. TD SYNNEX Corporation. All Rights Reserved.

- Under Reseller MPN ID, select the reseller from the list or select Enter MPN ID from the list to add the reseller.
- Click Buy. The system will process before a new screen appears.

- After the Confirmation screen appears, the Azure Plan will be available under Subscriptions.

6. Create An Azure Plan in Stellr

The Reseller can create the Azure Plan following the same process they use for creating a new Azure Plan for a new customer. They may contact their TD Synnex Account Manager for instruction on how to use the Stellr Portal.

7. Reseller Move Validation

- Review the resources in the existing PayGo subscription to determine if they are eligible to move between subscriptions.
- Use the Azure Move Validation tool to validate that resources can move.
- Create a move plan to address any potential issues and down time.

8. Stellr Services Team Move Validation

The Stellr move validation team can conduct an in-depth assessment of the existing subscription and provide a detail move plan for the reseller. Contract their TD Synnex Account Manager to engage the team.

9. Reseller / End User Move Resources

Using the move plan and the Azure Resource Mover tool, move each resource from the PayGo subscription to the new CSP subscription.

10. TD Synnex ServiceSolv

The TD Synnex ServiceSolv team can provide an SOW to perform the move for the reseller. This would be a fee for service engagement. Contract their TD Synnex Account Manager to engage the team.

11. Associated Documents

- Transfer Azure subscriptions between subscribers and CSPs
- Azure Resource Mover

Copyright © 2022. TD SYNNEX Corporation. All Rights Reserved.

- Move operation support by resource type - Azure Resource Manager
- Obtain Delegated Admin Privileges from Customer
- Reinstate Admin Privileges for a Customer's Azure CSP Subscriptions
- Create An Azure Plan in Partner Center
- Partner Earned Credit Overview
- Partner Earned Credit Calculation
- Partner Earned Credit - Permissions
