3.1. Partner Invitation Links

The reseller only needs to establish a partner relationship with the PAC in which their customers will transact. The reseller should contact their TD SYNEX account manager for the correct one to choose.

Note: These links are for PACs not eCommerce platforms. Multiple PACs exist in each eCommerce platform.

3.2. Establish a Partner Relationship

- Select the correct relationship link from the table in Section 3.1. You will only establish a relationship with the PAC in which your customers will transact. Contact your TD SYNEX account manager for the correct link.

Note: Do not use these links with end user customer tenants.

Note: This only needs to be done once per reseller.

- Start an InPrivate/InCognito session in your web browser.
- Paste the link in the browser then press enter.
- Login using global administrator credentials related to your reseller tenant.
- After login, you will be directed to your Partner Center.
- Check the check box then click “Authorize indirect provider”.

- After authorizing the indirect provider, click on the Customers tile.

- Then click on Indirect providers

- Confirm that the indirect provider is listed.

Note: There may be more than one provider listed.

4. Definitions

Term	Definition
End User	The ultimate consumer of Azure and MWP subscriptions and services.
Indirect Provider	An indirect provider in Microsoft Azure is a partner that purchases cloud solutions from Microsoft to resell to indirect resellers, offering them support services like customer assistance, billing, and pricing.
Partner Center	The Microsoft Azure Partner Center is a platform that streamlines business processes for partners, enabling them to manage their accounts, engage with customers, co-sell with Microsoft, and access a range of tools and resources for business growth.
Partner Relationship	A partner relationship is a connection between an indirect reseller and an indirect provider. It provides authorization of an indirect provider partnership and allows their full access to submit orders and add subscriptions on behalf of your customers.
Reseller Relationship	A reseller relationship allows the provider to sell Microsoft cloud subscriptions and services to end user customers. It does not provide access to the end user's environment.
Reseller	An indirect reseller in Microsoft Azure is a partner that sells Microsoft cloud solutions to customers by collaborating with an indirect provider, without having a direct billing relationship with Microsoft.
